DELINATORS

The Delineators are suitable for all kinds of rods. Their reflectors give best reflective performance to show the road geometry during day and night making it convenient for drivers and keep them away from road hazards. These results in avoidance of accidents. The Delineators are available in different fittings for different purposes.

APPLICATIONS:

- Dangerous Curves
- Central Verge
- Traffic Island
- Tunnels Island
- Tunnels / Bridges
- Road Medians

The Delineators are available in different sizes/fittings for different purposes according to customers requirements
